Designed to be seen

Thermally Modified Wood Collection - Natural + Timber Ridge

Our siding, pattern, and trim products add natural beauty to residential, commercial, and multifamily projects. With a diverse range of captivating finishes, we take pride in crafting wood that adds aesthetic appeal and simplifies installation.

BLACK FOREST

THERMALLY MODIFIED WOOD COLLECTION

Thermally Modified Wood Collection is wood cladding of the future. The all-natural thermal modification process creates a wood siding with exceptional beauty and remarkable stability. This process makes the wood less vulnerable to shrinking and seasonal expansion and contraction. What's more, it resists rot for long-term performance.

- Naturally treated for exterior use
- 20-year limited warranty (rot/decay)
- WUI Compliant (VG Hemlock T&G siding)

NATIVE WOODS

Bring nature's beauty home with Native Woods. These tongue-and-groove wood pattern boards make a stunning impression on walls, ceilings and on select covered exterior applications like soffits and porch ceilings.

- Interlocking pattern requires fewer exposed fasteners
- Boards feature natural knots and grain with a smooth, prefinished surface
- End-matched requires fewer cuts

Available in 1x6
Pattern: Interlocking T&G
End-matched
Matching 1x4 trim available.

*Wood grain and color may vary from board to board due to natural characteristics of wood.

PREMIUM PATTERN

We provide a wide range of pattern and siding boards for various projects. Starting with high-grade, kiln-dried lumber that is free from defects, we shape it carefully to maintain its integrity. Our detailed processes, including hand sorting and precise knife grinding, ensure our products are naturally beautiful.

- Manufactured to industry standards
- Wide range of profiles, sizes, and species
- Small, tight knots and beautiful grain for best appearance

TRIM AND FASCIA

EVOTRIM with TRU-CORE® technology

Experience the superior performance of EvoTrim™ featuring TRU-CORE® treating technology for long-term exterior trim and fascia solutions. The innovative wood treatment infuses five EPA-registered preservatives into the board's core, and provides exceptional stability and is resistant to rot, insects and termites.

FEATURES

- Finger-jointed and edge-glued for superior stability
- TRU-CORE® treated and primed on all sides
- S4S or S1S2E (resawn)
- 1x, 5/4 in, 2x in widths up to 12 in./lengths up to 20 ft.
- 40-year limited warranty against termite attack and fungal decay
- 20-year limited warranty against delamination
- 5-year warranty against peeling and flaking

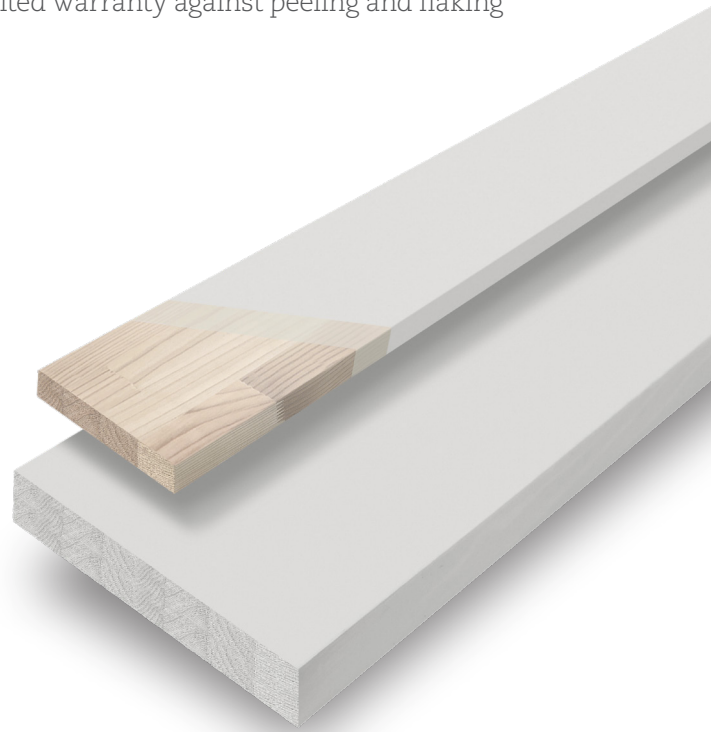

PREMIUM PRIMED

Premium Primed trim and fascia is made from finger-jointed and edge-glued boards for maximum stability. These trim boards offer a textured or smooth appearance, creating an attractive, protective accent. Each board is primed and ready for a topcoat of exterior paint.

FEATURES

- Clear or knotty
- 1X, 5/4-in, 2X in a variety of widths up to 12 in.
- Lengths up to 20 ft.
- Finger-jointed and edge-glued for superior stability
- S4S or S1S2E (resawn)
- 20-year limited warranty against delamination
- 5-year limited warranty against peeling and flaking

PRIMED SPF

Our Primed SPF trim and fascia boards are machined and primed to perform in virtually any weather condition. Our trim boards are available in a variety of lengths and are ready for a custom topcoat of exterior paint.

Features

- Knotty SPF wood is kiln dried and stable
- 1X, 5/4-in, 2X in a variety of widths up to 12 in.
- Lengths up to 20 ft.
- S1S2E (resawn or combed), C4S, or R1F1E
- 5-year limited warranty against peeling and flaking

EXTRA PROTECTION WITH XTP

For ultimate protection, choose our new Exterior Topical Preservative (XTP). XTP is an additive that fortifies each board and safeguards against rot and termites. For peace of mind, XTP is backed with a warranty against rot and termites.

XTP Features

- Factory primed and treated on all 6 sides
- Protects against rot and termites
- 20-year limited warranty
